

Fire Risk Assessment

Why do you need it?

Every non domestic premises requires a fire risk assessment by law in order to ascertain the risk of fire and the necessary control measures that need to be put in place to control it. Many insurance companies will also request to see your fire risk assessment in order to validate your insurance.

Who is it for?

All companies who have non domestic premises.

Pre-requisites

None

Aims:

- To carry out a thorough inspection of the premises highlighting all potential fire hazards
- To identify relevant control measures to reduce the risk of fire
- Improve the safety performance of the company

Content

- A visit to the premises to identify hazards
- Identification of control measures implemented and recommendations of those to reduce the likelihood of fire and minimise its effects in the event of an incident occurring
- Comprehensive report detailing the findings of the fire risk assessment, control measures and a recommended action plan.

What next:

- Fire awareness training
- Health and Safety Audit
- IOSH Working Safely course
